

June 4, 2010

The Honorable Julius Genachowski
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I am writing on behalf of the Cambridge, Massachusetts, Chamber of Commerce to request your approval of the Comcast-NBC Universal joint venture. Comcast is a respected member of our Chamber. The company has made a significant investment in telecommunications technology, which is an integral part of Cambridge's economy. Comcast is also a solid job provider known for its commitment to corporate citizenship.

Comcast's leadership in the field of telecommunications is benefiting our city. The company's innovative broadband Ethernet system provides super high-speed internet access to multiple school and lab buildings that need additional bandwidth. The company's work with other Chamber members to develop regional business services also helps encourage business growth in Cambridge. In addition, Comcast is an excellent community partner that supports countless non-profit organizations and projects throughout the area.

We believe Comcast demonstrates a standard of excellence in its business practices as well as its community support. The Chamber urges the Commission to approve Comcast's proposed partnership.

Sincerely,

A handwritten signature in black ink, appearing to read "Terrence Smith", written over a horizontal line.

Terrence Smith
Director of Government Affairs
Cambridge Chamber of Commerce

CC: Commissioner Michael J. Copps
Commissioner Robert M. McDowell
Commissioner Mignon Clyburn
Commissioner Meredith Attwell Baker
